Coroner Padberg Directs That Everyone Entering Room Be "Frisked" -Zang Tells How He Was Hounded for a Year by Gang.

Henry Zang, 28 years old, of 2405 Wesley (Red) Simon in James Mooney's afternoon, was taken to the Coroner's office for the inquest under a heavy police guard at 1:30 p. m. Tuesday, the start from police headquayters being made almost exactly 24 hours after the killing of Simon. Zang was to have been the principal witness against Simon in his murder trial for the killing of Robert Emmet Carroll in a gang-sters' feud, March 31, 1913.

At the request of Coroner Padberg, a special detail of 3 detectives was sta-tioned at the Coroner's office with in-structions to search for weapons everyone there except attaches of the office. ACID STOMACHS **ARE DANGEROUS**

Physician's 'Advice on Cause and Cure.

A famous physician whose successfu researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lec-ture that nearly all intestinal troubles organs, were directly traceable to a deranged condition of the stomach, which in turn was due, nine times out of ten, to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines, as well as of medical treatment for the stomach, statmedical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary blaurated magnesia, which, by moves the source of the tood, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments are useless, so long as the contents of the stomach remain acid; remove the acid to the stomach remain acid; remove the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisurated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

DELEGATE BUTLER

Police Will Ask Revoking of License if They Find Witness of Craps Game.

ANDERSON READY TO ACT

Three Policemen Assigned to Watch Easton Avenue Building for Gambling.

Capt. Seth Singleton of the Dayton Street Police Station, in whose district a big craps game has been conducted on the third floor of a building at 3001 Easton avenue, told a Post-Dispatch reporter Tuesday he would ask the Exmissioner to revoke Thomas J. Butler's, saloon license if he could get the name of a witness to the gambling nember of the House of Delegates from the Nineteenth Ward, conducts a saloon on the first floor of the Easton avenue address and leases the entire

said he was seeking the names of witnesses, so he could cite Butler to show cause why his saloon license should not

Police Start Investigation. Capt. Singleton said he had started his investigation of the craps game by assigning three special officers to watch Butler's saloon on their rounds and especially to try to inspect the third floor of Butler's premises to see what conditions obtained there.

"The craps game has been exposed by he Post-Dispatch," Capt. Singleton "and the men who have been operating it will now, of course, be wary and on the lookout for the police. The tained admittance to the third floor and itnessed the craps game shows that some member of the Police Department also should have been able to get in." The three Police Sergeants, in whose nct Butler's saloon is sitsuated told Capt. Singleton they never had heard of a gambling game being con-ducted there. A Post-Dispatch reporter learned the game had been operated a ong while.

Professional Game Conducted. The game, found to be what is nown as a professional or "house game," was played upon a pool table which had been converted into a dice table. Four keepers conducted the game last Saturday night and accepted all wagers made by the players.

Butler, when asked about the craps game, told a reporter that if a craps game had been conducted on the third floor of his building he was not aware of it.

Have YOU Seen Sonnenfeld's Line of Spring Suits at \$10.147

If you have not seen this line, do so at once. It will be a revelation to you.

It will show you what can be accomplished by the right sort of effort—by a determination to excel.

This is the fifth consecutive season that we have been specializing on Suits for women and misses, at a price even with the year.

We conceived the idea long previous to the birth of 1912—we made special efforts. The result was a decided success.

• Every following season has witnessed the increase in popularity of this special line, because we have increased the values, we have increased the variety, and we have increased considerably the character of the styles.

• We have the active co-operation of a score of the leading makers, each one striving to provide exceptional qualities and styles that will be acceptable to us for the \$19.14 line. These manufacturers know they must make enormous concessions, and because of our great volume of regular business they are more than willing to do so. Then we sacrifice part of our profits.

I You can see what this means to you—it is the striving at every point to provide the best styles and best values in women's and misses' tailor-made Suits at \$19.14.

If you were to take one of these Suits apart and just figure the actual cost of the materials, let alone the cost of creating styles and the high-class workmanship, you would realize what we have accomplished in the way of providing the unusual in the way of Suits at this attractive price.

There are sixty clever styles—(3 of which are here illustrated)—all selected with discriminate care—all made up of high-grade materials, including Crepe Poplins, Swivel Cloths, Waffle Checks, Gaberdines, Serges, black and white Shepherd Checks, etc.—and all the new Spring shades.

We want the women and misses who have been accustomed to paying \$30.00 and \$35.00 for their Suits to come and see these excellent garments-then they will realize that we are providing the full measure of quality, style and workmanship that they demand, for \$19.14.

All sizes for women and misses.

Commission Demands Carthage Product; Contractor Insists on Using Another Kind.

JEFFERSON CITY, March 3. Serious delay in the contsruction of of J. J. Van Cleve, a former St. Louis- deadlock between the commission an, and denouncing the verdict which and the contractor over the kind of freed them, were adopted last night at stone to be used, was indicated to-

oad of some of it on the grounds or that his contract might be canceled on the ground that his attitude was causing unnecessary delay.

Work on the building has already been delayed nearly two months, and the extent of further delay will depend on the approval by the commissioners of the subcontracts and the approval of the stone to be used in the W. H. Phelps Interested.

Since the old capitol burned and the preliminary plans for a new capitol were first considered, Col. William H. Phelps of Carthage has taken an active interest in the capitol, devoting the greater part of his attention to making sure that Carthage stone would be used in the building.
Secretary of State Cornelius Roach,

whose home is in Carthage, has also interested himself in the stone situation and is an active "booster" for Carthage stone. Roach was one of the members of the Board of Permanent Seat of Government which selected the members of the Capitol Commission Board.

After the contract for the erection of the Capitol had been awarded to John Gill & Sons Co. of Cleveland and Gill had determined that he would not use Carthage stone, because by using another product he could save \$135,000 on his contract, Gill employed former Sen ator A. E. L. Gardner of St. Louis County to represent him in his dealings with the Capitol Commission and support a demand by Gill that he be permitted to use Ste. Genevieve stone instead of Carthage stone.

Demand on Commission. Gardner served on the commission a demand that it approve the subcontracts submitted. These include the iron and bronzs work, the reinforced concrete work, plate glass, the approval of the modeler for carved work, the mechanical contract, heating, electrical, power plant and drainage, plumbing and sheet metal work. It is the contention of the Gill representatives that the com-mission is holding up the approval of the contracts in an effort to compel him to use Carthage stone, to which the nissio is giving unanimous support. Gill contends that work on many subneously with the erection of the steel for the building, and that a failure to approve the contracts will seriously de-

There is in Jefferson City a report that other political interests of the State, particularly in St. Louis, have been attempting to influence the com-mission to use other than Carthage stone. The report connects this inter-est with ownership of stock in the Bed-ford (Ind.) quarries. The commissioners deny that there has been any attempt on the part of any person to obtain ap-proval of particular stone, except pub-lic arguments made at regular meetings of the commission by practical ston

A. A. Speer, one of the commissioners, said to a Post-Dispatch reporter: "The commission is guided solely by its de-sire to obtain the best building stone possible for the capitol, and we intend best stone to be had in the State o

Campaign Launched to Provide \$45,000 Annually for Next · Four Years.

A campaign to endow the St. Louis Symphony Society with \$45,000 a year for the next four years was started at a banquet of the Business Men's League at the St. Louis Club, Monday night. The plan contemplates lengthening the season, providing popular permanent concerts in the Collseum, making possible out-of-town engagements, adding 25 men to the orchestra and obtaining and retaining the best artists.

After Conductor Max Zach had made an address, asking the financial support of the business men, George D. Markham made a motion, which was carried unanimously, that a campaign to raise an endowment be started.

In furtherance of the plan, meet ings are to be held during the next two weeks by members of the 75 sections of the Busines Men's League, at which speakers will explain the campaign. Funds will then be solicited The endowment, it is believed, will enable the orchestra to take firs rank, instead of third rank, in America. It is now held by experts to be surpassed only by the orchestras of Chicago and Boston.

Director Zach said he believed that the styles with this financial assistance it will be possible to lengthen the season several months and give free concerts at the Collseum and in the parks. He suggested that business men who help the orchestra will get returns in increased patronage from communities visited by the orchestra.
Charles Claflin Allen suggested that a small tax levy might be made for the support of the orchestra, which would give St. Louis the distinction of being the only municipality with its own orchestra, but it was thought that the time was not ripe for this.

Among those who spoke in favor of the endowment were Hanford Crawford, Hugo A. Koehler, Edward Faust, Henry Ittleson, E. A. Hilden-brandt, George D. Markham and James E. Smith. D. D. Walker pre-

Members Propose to Change Tentative Draft Providing for 28 Members.

e members of the Board of Freeholders at an early meeting to reduce the mber of members of the Board of Aldermen to be created by the ne harter from 28 to 14.

The Freeholders, several months ago, decided to provide for one Alderman from each of the 28 wards, as the city now districted. The Aldermen are to be nominated at large and elected at large, but each ward is to have one representative.

Chairman Jesse McDonald has served notice on the other members of the board that at the first meeting when all members are present he will call up the question of reducing the number of Aldermen. Louis P. Aloe, another member, also has been working on the same problem, and will propose that the city be divided into 14 wards, with one Assemblyman from each ward, nominated and elected as originally provided.

Change in Constitution Awaited. This would reduce the Board of Al dermen to 14 members, and make it, in the opinion of those members who favor it, a much more efficient working body than a board of 28 members.

The scheme of nominating and elect ing the members of the Board of Aldermen at large will continue only until the Constitution of the State can be amended to permit of their election by wards or districts. The members of the Board of Freeholders have taken the opinion that district representation in St. Louis was desired. Under the Constitution, where there is only one nouse of legislation, it must be elected

The board finally adopted a plan suggested by Samuel Rosenfeld that each ward should be entitled to one representative in the Assembly, but that the nominations must be made by the city at large. Under this plan the voters of each ward probably would hold preliminary meetings or primaries to agree upon the men they wished to put forward as a candidate for the Board of Aldermen.

The candidates selected by the citizens of the ward then would be placed on the primary election ballot, and the nominations would be made by the voters of the entire city. The same method would be followed in the election. The candidates nominated for each ward, by the different parties, would go on the same ticket

If the number of Aldermen should be reduced from 28 to 14, seven members of the board would be elected every two years. If the board should decide to retain the 28 members, 14 would have to be elected every two

Chauge Expected to Carry, At least one influential freeholder has stated that he did not believe he would sign the charter unless the number of aldermen provided for was ut down materially. It is thought by those who have been working on the proposition that enough members will favor the smaller board of aldermen to reduce the number to 14. meetings each week this

The Freeholders, to complete the charter by April 1, will hold three Nearly all articles of the charter have been written, most of them ten-tatively adopted and printed in pamphlet form. The principal work yet to be done in correcting and revising, and finally adopting the several articles.

The Municipal Assembly will be asked to call a special election early in June to submit the charter to the people. A majority vote only will be required to adopt it. If the new charter should be adopted, the new board of aldermen provided for would be elected next spring. The esent officers would serve out their terms, and then the new form of government would be put into ef-

Conference With B. P. I. The Committee on Administrative Department planned to meet with the Board of Public Improvements at p. m. Tuesday, to discuss provisions of the charter relating to the admin-istrative department of the city. Radical changes in the Board of Public Improvements are proposed in the tentative draft of the new charter, The members of the present Board of Public Improvements asked to be heard on several suggestions.

The Freeholders having charge of the provisions on administrative de-partment are Louis P. Aloe, Edward Flad. Frederick N. Judson, Samuel Rosenfeld, Selden P. Spencer, Clinton E. Udell and Henry S. Cauffeld, counsel, and William E. Jones, secre-

Witnesses Detained and Grand Jury Begins Investigation of Mrs. Owsley's Story.

A verdict of homicide in self-defens was returned Tuesday by a Coroner's jury in the case of Mrs. Ada Owsley, who shot and killed her husband, Ben-jamin S. Owsley, at their home, 1219 Warren street, Sunday afternoon. Mrs. Owsley and all witnesses were held for the grand jury, which began its investigation of the killing at 2 p. m.

Mrs Owsley, who had been a prisoner under observation at the city hospital, was taken to the Municipal Courts Building in a patrol wagon, escorted by Patrolmen Morrisey and Hughes. She became hysterical on the way, crying 'Don't let him beat me any more!" 11 believed she referred to her husbane .As she reached the Coroner's witnes room, Mrs. Osley ran to the arms of Edward Ricketts, her son by her firs narriage, and sobbed in his embrac luring the early part of the inquest. He also testified he had heard that she shot a woman

at Madison, in Ind., in 1905. Says Mrs. Owsley Was Threatened Ricketts testified that Owsley fre quently threatened to kill Mrs. Owsley and boasted other women admired him In her confession, Mrs Owsley declared the shooting occurred during quarrel after her husband had attempted to force indignities upon her. She set forth that he struck her over the eye with something and then asked her "Where's my gun?"
She alleged she told him it was in

trunk in a front room and that while he was looking for it she obtained the revolver from a washstand in the room in which they had been sitting at dinner. As Owsley returned, she declared, he made as if to strike her, saying,

"Now, I'll fix you."

Mrs. Owsley declared in the confes sion she fired only two shots. She said she ran to the door to call her grandmother, Mrs. Bohenkamp, who lives next door, at 1217 Warren street, but fainted. Later, she said, she ran to a window and motioned to a passerby, who came in the house accompanied by

Hysterical After Slaying. Mrs. Owsley was hysterical when ar rested and was kept in Ignorance of her iusband's death while in that condition. Before being taken to the inquest she recovered, in a measure, from her hysteria, and declared that two years ago her husband threatened to kill her with a hatchet and a razor.

She was sick at the time and was to go the next day to a hospital to undergo an operation. Her husband came home intoxicated, she says, and quarreled with her, obtained a hatchet from the back yard and told her he was not going to let her live through the night.

She sent her son, Edward, to 1101 Palm

> LESSON No. 4

ANCERS must always be sure of their balance, that they are keeping their knees supple and, this is most important, that they are not holding each other too tightly.

Partners should never get too close to each other to prevent freedom of movement. FOURTH FIGURE: The gentleman starts with the right foot to the right, takes a step with the left foot in the same direction and makes a long chasse with the right foot on one side. He starts from this chasse—one step with the right, one with the left and a chasse with the right, to begin again at the third step and always in the same direction. At the last chasse he starts in the opposite direction from the right and takes four steps. At the end of the fourth he chasses with the left foot forward. takes two steps, chasses again with the left and starts the third time to turn on this last chasse, takes four steps and again begins the whole figure, which ends with a chasse to the right and a chasse to

the left, alternating twice.

The lady takes the same steps, starting with the left foot to the left. In this figure when the couple take the side step they are always side to side. The body and the head are turned in the direction followed, but at each chasse the man and the woman look at each other and turn their busts toward one another. This is one of the most perfect of the Tango figures.

The Autopiano Is Recognized as the World's Standard Player-Piano

Selecting a player-piano is a much more serious matter than buying an ordinary piano for hand playing. In the average home, when the piano is used, it is possibly played by only one member of the family two or three hours per week—or per month, and there are a number of well-known American pianos so thoroughly standardized as to workmanship and material, that under the above conditions and with ordinary care they will give years and years of satisfactory service. To buy such a piano becomes merely a matter of selecting a tone quality

But every member of the household uses the player piano. It must be ready to work for hours, day in and day out, and there are few player-pianos that are both artistic and trouble-proof. Of these few the Autopiano has established itself as the safest, solidest and simplest player-piano made.

The wonderful artistic and wearing qualities of the Autopiano have earned for this player-piano a remarkable success. There are now twice as many Autopianos in use as any other make, and the Autopiano factories are the largest factories in the world devoted to the man-

ufacture of player-pianos exclusively. The Autopiano is a thoroughly high-grade, artistic piano, made by expert piano labor, of the best materials that can be used in the process of piano building. The cases are highly artistic and beautifully designed; the tone is all that can be desired by even the most critical. And into this same splendid and artistic piano is built the player mechanism, so skillfully constructed that it is entirely concealed when the piano is closed or used for

That this Autopiano mechanism is, without question, the best player mechanism is practically conceded by the entire trade, for not only was the Autopiano the first satisfactory player-piano made, but ten years of scientific study and experimenting have resulted in the addition of many exclusively patented devices that permit anyone to artistically and naturally interpret the world's best music, and obtain the results only heard on a regular piano when it is played by the hands of the world's

Women Working on Pageant Garb Find Ancient Mayos . Wore Heavy Hair.

A corps of young women in an office uilding worked Tuesday at the task of costuming 320 Maya chiefs, warriors and women, who are to appear in the pageant and masque of St. Louis in

Forest Park, May 28-31.

The Mayas were members of the All-American League a few hundred years ago, and were always in the first division. They used to contend with the Aztecs and, occasionally, with the Tol tecs, in the world's series. They re rded the Sioux, Pawnees, Choctaws and Modocs as mere bush leaguers.

Partners should never get too close to each other to prevent freedom of movement. FOURTH FIGURE: The gentleman starts with the right foot to the right, takes a step with the left foot in the same direction and makes a long chasse with the right foot on one side. He starts from this chasse—one step with the right, one with the left and a chasse with the right, to begin again at the third step and always in the same direction. At the last chasse he starts in the opposite direction from the right and takes four steps. At the end of the fourth he chasses with the left foot forward, takes two steps, chasses again with the left and starts the third time to turn on this last chasse, takes four steps and again begins the whole figure, which ends with a chasse to the right and a chasse to

The lady takes the same steps, starting with the left foot to the left. In this figure when the couple take the side step they are always side to side. The body and the head are turned in the direction followed, but at each chasse the man and the woman look at each other and turn their busts toward one another. This is one of the most perfect of the Tango figures.

The Autopiano Is Recognized as the World's Standard Player-Piano

Selecting a player-piano is a much more serious matter than buying an ordinary piano for hand playing. In the average home, when the piano is used, it is possibly played by only one member of the family two or three hours per week-or per month, and there are a number of well-known American pianos so thoroughly standardized as to workmanship and material, that under the above conditions and with ordinary care they will give years and years of satisfactory service. To buy such a piano becomes merely a matter of selecting a tone quality

But every member of the household uses the player piano. It must be ready to work for hours, day in and day out, and there are few player-pianos that are both artistic and trouble-proof. Of these few the Autopiano has established itself as the safest, solidest and simplest player-piano made.

The wonderful artistic and wearing qualities of the Autopiano have earned for this player-piano a remarkable success. There are now twice as many Autopianos in use as any other make, and the Autopiano factories are the largest factories in the world devoted to the man-

ufacture of player-pianos exclusively.

The Autopiano is a thoroughly high-grade, artistic

piano, made by expert piano labor, of the best materials that can be used in the process of piano building. The cases are highly artistic and beautifully designed; the tone is all that can be desired by even the most critical. And into this same splendid and artistic piano is built the player mechanism, so skillfully constructed that it is entirely concealed when the piano is closed or used for hand playing.

That this Autopiano mechanism is, without question. the best player mechanism is practically conceded by the entire trade, for not only was the Autopiano the first satisfactory player-piano made, but ten years of scientific study and experimenting have resulted in the addition of many exclusively patented devices that permit anyone to artistically and naturally interpret the world's best music, and obtain the results only heard on a regular piano when it is played by the hands of the world's best pianists.

You Smoke a "Better" Tobacco -Why Not Smoke The Best?

THE tobacco you now smoke you consider "better tobacco than you ever smoked before." Naturally, you kept trying until you found a "better" one.

But it stands to reason that since there is a difference in tobaccos, you may be missing still greater pleasure in a still better smoke —in the BEST smoke, in fact.

Tuxedo is the best smoke because no better tobacco leaf grows, and no process of treating tobacco leaf equals the original "Tuxedo Process."

We know that Tuxedo is made of the BEST tobacco-rich, mellow, perfectly aged Kentucky Burley. None better can be bought, because none better is grown.

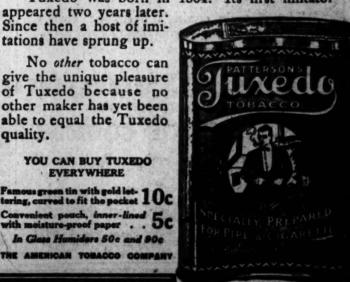

It is treated by the famous original "Tuxedo Process" for removing the sting and bite of the natural vegetable oils.

Tuxedo was born in 1904. Its first imitator appeared two years later. Since then a host of imitations have sprung up.

No other tobacco can give the unique pleasure of Tuxedo because no other maker has yet been able to equal the Tuxedo quality.

Rheumatic Blood—THE Story That Millions Tell—The Way to Prompt Recovery

There is a host of pills, powders, tablets and what-not for rheumatism, but they all lack the first essential to being a natural medicine. To begin with, rheumatism is simply a name given to designate a variety of pains, and can only be reached by irrigating the entire blood supply with a naturally assimilative anti-

irrigating the entire blood supply with a naturally assimilative antidote. True, the pains may be eased with narcotics or the acids may be neutralized for the time being. But such methods merely temporize and do not even lead to a cure. There is a standard rheumatism remedy, and is sold in all drug stores under the name of S. S. S. Attempts are often made to sell something claimed to be "just as good." Insist positively you will have nothing but S. S.

It contains only pure vegetable elements and is absolutely free of mercury, iodide of potash or arsenic. The recoveries of all types of rheumatism by the use of S. S. S. is a fine tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally and just as well ordained as the most acceptable, most palatable, and most readily digested food. Do not fail to get a bottle of S. S. S. to-day. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a specialist, write to the medical department, The Swift Specific Co., 307 Swift Bldg., Atlanta, Ga.

Sir Edward Grey Says There Is No Intention to Engage in Any Fantastic Show of whatever steps may be practicable.' Force, but That He Won't Let the Subject Rest.

Sovernment's view that no immediate action would be taken by it in connection with the deadlock over the investigation into the death, at Juarez of William S. Benton, a British subject, was made quite plain tolay in the House of Commons by Sir Edward Grey, the British Foreign Secretary.
Sir Edward was equally explicit in

pointing out that, if Great Britain failed to obtain satisfaction through the United States, the British Government reserved the right to get reparation whenever it could.

The promised pronouncement on the Mexican situation from the Foreign Secretary had been anxiously awaited. It was delivered before a keenly interested gathering of the nembers of the House of Commons. members of the House of Commons.
Replying to a question, Sir Edward
Grey said that Great Brita-n had not
recognized Gen. Villa as a belligerent.
A further question brought the stateent that no assurances had been obsined from Provisional President Huerta regarding the protection o British subjects in Mexico.

Intense resentment has been displayed throughout the British Isles over what is regarded as the attempt ow the part of Carranza, the Consti-tutionalist leader, to sow discord beween England and the United States, and also over the repeated delays in the investigation of the death of

Sir Edward's Statement.

In reply to a question as to the investigation into the death of Benton, Sir Edward said:

"I must ask leave of the House to make a somewhat more extended statement than can properly be compressed within the limits of an answer to a

"All the efforts that have been made hitherto have failed to secure an inves-tigation in the facts respecting the death of William S. Benton.

"The persistent difficulties put in the way of such an investigation create the strongest presumption of a desire and ntion to conceal the truth on the part of those in Mexico who are responsible for what has happened. "Communications with the Governnent of the United States are still pro-

eeding, but I repeat what I said last week—that these communications do not imply that the Government of the United States has any responsibility for what has taken place-by which I mean, of course, the death of Benton.

"While, therefore, we shall welcome any action that the United States is prepared to take to secure justice, we have no title to demand as a right that the United States should itself resort

"One can demand that another Gov ernment should go to all lengths to secure reparation for a crime only when one holds that Government in some way responsible for the commission of the

United States' Interest "So far the United States has shown at least as much interest in the death in the case of outrages on American itizens-for I understand that several Americans have been killed in Mexico. And the United States has shown every desire to use its influence to secure protection for British subjects in the Mexican territory controlled by those

described as Constitutionalists.
"I would, therefore, sum up the situation by saying that if the United States thinks it proper to take further steps on behalf of its own citizens or of a British subject, we will gladly awalt the result. But if for reasons of its own the United Straes does not think it desirable to take such steps, we must, of course, reserve to our-selves the right to secure reparation whenever there is an opportunity to

do so.
"Our general policy towards Mexico epublics is confined to commercial interests, which we keep within non-politi-cal limits. As a rule, therefore, all esentatives and ourselves are settled by diplomatic means or can be referred o arbitration.

THE TERMINAL DECREE.

The final decree of the Federal Circuit Judges in the Terminal suit is disappointing only in the the Supreme Court, perpetually enjoining the van. Sullivan would draw. Terminal combine from making any "special or so-called arbitrary charges" for the use of the Terminal facilities in respect to traffic originaton traffic originating outside of that zone.

In view of the wording of the clause, its context and the evidence submitted in the suit that the railroads in the Terminal combine had abolished all arbitrary charges outside the 100-mile zone, but one construction can be put upon this clause, namely, that it was intended to wipe out all arbitrary charges. The designation of the Terminal Railway as an extension of the tracks and the terminal system of each road using it confirms this construction. It is emphasized by the order that goods must be billed direct to St. Louis and East St. Louis with St. Louis rates.

The Terminal railroads will put any other con- Kreisler and Ysaye. struction on the clause at their peril. If they reknown terms to their managers.

The only decent course for the Terminal rail- liberal support for the orchestra fund, roads to pursue is to accept the plain intent of the arbitrary clause and wipe out all arbitrary charges. They should at once place St. Louis on a normal railroad basis.

The opinion of former Attorney-General Wickersham and former State's Attorney-General Crow that the Supreme Court intended to abolish the arbitrary is shared by Attorney-General McReynolds. A contrary construction on the part of the Terminal railroads will result in another appeal to Robert Emmet Carroll was his victim. The success of the St. Louis Symphony Orchestra during the season now drawing towards a premature close thoroughly justifies the increased endowment of \$45,000 a year for the next four years which the Business Men's League has pledged itself to raise.

PROPLE'S EXPRESS STILL FREE

The famous-or infamous-"five reasons" why the United States so long lagged behind other nations in establishing a parcel post service (the five reasons being the five express companies) are apparently no longer valid in the United States Senate.

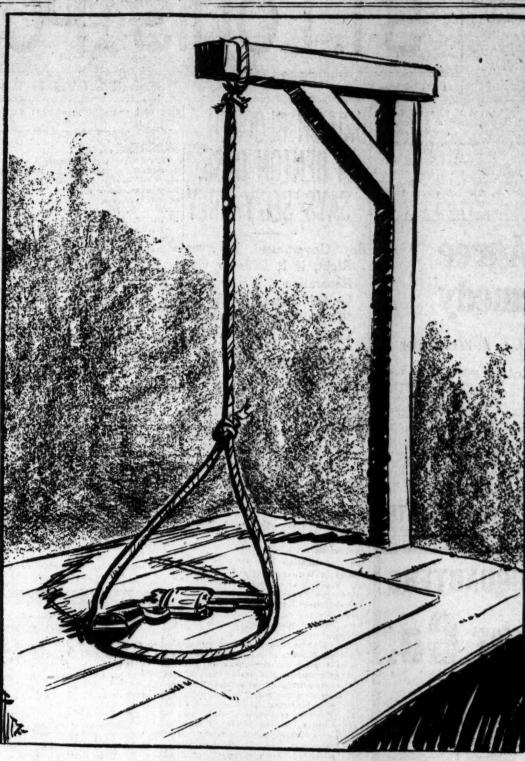

On Friday, Feb. 27, the Senate by a vote of 33 to 24 rejected the proposal to strip the Postmaster-General of power to lower rates and alter regulations of the parcel post without specific authorization in each instance by Congress. Mr Burleson and his successors are left free to mansonate the Mississippi River in St. Louis' spring age the people's express company on a competitive basis, and the sly effort of the "five reasons" to hamstring the public service is defeated. On the same day the Senate rejected Senator Bankhead's proposition to prohibit further weight increases—an amendment designed to prevent ostmaster-General Burleson from raising the weight limit from 50 to 100 pounds. The popular election of United States Senators is

justifying the faith of the men who fought for it.

The failure of the Scanty Creek Bank and Trust Co. last Friday was the most exciting day in the history of Smith County, Tenn. The Seng diggers, enake hunters and Hill Billies generally gathered in front of the defunct financial institution and gazed and gazed at the "closed" sign on the door; some expressed their indignation "in no uncertain way;" some shed tears; some whispered; others quietly whittled, but nearly all were depositors, some having as much as \$100 to their credit. Why I Became a Suffragist.

Third of a series of statements written for the Post-Dispatch in reconse to the question addressed to St. Louis women who are le advocates of equal suffrage: "What incident or reason lead you to take up the cause of votes for women?"

By Mary E. Bulkley.

Chairman of the Standing Committee on Propaganda of the Missouri Equal Suffrage Association. To the Editor of the Post-Dispatch:

X ardent support of the cause of equal suffrage came about with me, Y ardent support of the cause of equal suffrage came about with me, as it has done with many other women, from my own experience. As

long as I remained a home-keeping woman, or tren as long as I worked at home at my craft, I was, as are so many others, quite indifferent to the necessity of obtaining the franchise for my sex.

About ten years ago, in a very amateur sort of way I became interested in work at the old Self-Culture Hall, Nineteenth and Carr streets, new merged with Neighborhood Association. It did not take me long to learn that the same people who were giving large sums in charity were often themselves, sometimes knowingly, often unknowingly, the direct causes of the conditions their gifts were meant to alleviate. It was the alliance between business and politics that made so much of this oppression and distress

The next thing to help me was the formation of the Woman's Trade Union League and an attempt to get a 9-hour law for women. At first all went surprisingly well, but when the bill reached the Senate it seemed to be bewitched. It was stuck in committee; it missed its place on the calendar. Everything that could happen, did happen. At last the bill got to the Governor and to our great joy the Governor signed it. But in some mysterious way the wrong and amended bill got into his hands, was

signed, was of no use to us. The next session the Social Service Conference formed a Legislative Committee, with a distinguished lawyer to represent them, and backed by a list of voters' names in every district, by dint of hard and brilliant work put this bill through.

Equal or worse chicanery met the suffragists when they tried at the last Assembly to get the suffrage amendment submitted in 1914. Our friends in the Assembly assured us that the political trick then played would never have been tried on any body of people whom the legislators thought cap-

able of inflicting punishment in return. The questions of government and taxation touch us all. By the exercise of the suffrage we can educate ourselves not only upon the questions upon which we vote, but also to learn to regard ourselves not as isolated individuals, but integral parts of a great body politic and citizens of the

Commenting on the decree handed down Monday by the three United States Circuit Judges, interpreting the decision of the Supreme Court in the Government ouster suit against the Terminal Railroad Association, President McChesney of the Terminal would have only this to say to a Post-Dispatch February Court of the Post-Dispatch February Court of the Post-Dispatch February Court of Terminal Court of the Post-Dispatch February Court of Terminal Court of the Post-Dispatch February Court of Terminal Court of the Post-Dispatch February C Forter Tuesday, for publication:
"The decree handed down by the Unit-

ed States Circuit Judges yesterday is entirely satisfactory and is in accord-ance with our views. All the directions in this decree will be fully carried out."

President McChesney declined to make a detailed statement relative to the policy of the company with particular respect to the bridge arbitrary. It is generally understood that there will be no change in the rate situation until the Interstate Commerce Commission hands down its decision in the suits filed by

the Business Men's League and the Post-Dispatch.
This decision is expected this month.
The commission has promised the de-cision before April 1. The contracts between the mine owners and miners will expire April 1, and the commission had this fact in mind when it promised an early decision in the rate cases. A de-

ision will enable the operators and miners to figure the rate question into

Money market conditions continue favorable and call and time rates are casy in this, as well at the London market. Paris continues to fear financial troubles, but so far nothing sinister has developed.

Trade reports are irregular, but on the whole comparatively optimistic, and the recent low temperatures have stimulated the demand for many lines. Best opinion is that the steel business is steadily expanding, especially in basic lines.

The late market was quiet and prices closed irregular.

The extremely cold weather has stiffened the market for anthracite coal and provided a little ammunition for the bulls on Reading. The stimulus was needed, inasmuch as the earnings of the company have been falling back so much as to show the 8 per cent dividend, after allowing for all charges, not much more than barely earned.

The Republic Iron and Steel Co.'s annual report is a gratifying one. It shows that the year's business of the company was the second largest in its history. After the 7 per cent preferred dividend, and allowing for more than \$3,500,000 for maintenance, repairs, shrinkage or raw materials and other contingencies, there remained a net balance of \$3,101,300, equivalent to nearly 11.5 per cent on the common stock Had no depression set in during the latter half of 1913, the sharing might have been the best in the company's history Very little margin now remains in net earnings over the preferred dividend, so sharply has the business of the Missouri, Kansas & Texas fallen off during the past six months. In face of such a bad showing what is more natural than the weakness in the common stock. Unless a radical reversal in earnings occurs during the remainder of the fiscal year even the preferred dividend will be in doubt.

\$2,500,000 LACLEDE GAS LIGHT COMPANY

Five Year 5% Gold Debentures

Authorized and Approved by the Public Service Commission of the State of Missouri

Dated February 1, 1914

Interest payable February 1 and August 1 in Saint Louis or New York. Coupon debentures in denomination of \$1,000 each, registerable as to principal. Callable as a whole, but not in part, at 102 and interest on any interest payment date prior to February 1, 1916, and at 1011/2 and interest on February 1, 1916 and any interest payment date thereafter.

ST. LOUIS UNION TRUST COMPANY, SAINT LOUIS, TRUSTEE.

The Laclede Gas Light Company does all the gas business in the City of Saint Louis, Missouri, the fourth largest city in the United States. The Company operates under a special charter which, in the opinion of counsel, is perpetual, and the validity of which has been established by the Supreme Court of the State of Missouri.

From a letter addressed to us by C. L. Holman, Esq., President of the Company, we summarize the following.

These gebentures are a direct obligation of the Company.

Proceeds to be used for the purpose of retiring floating indebtedness incurred for additions to property and plants, or for new construction.

Issued under an indenture which provides that during the life of these Depentures no additional mortgage or debenture ob igation of the Company may be created unless these Debentures are simultaneously retired.

Indenture further provides that during the life of these Debentures current bills payable of the Company shall not exceed \$1,000,000.

The Company's properties are in excellent physical condition.

Cross Earnings have increased from \$3,913,846 in 1908 to \$4,490,327 in 1913. Net Earnings for the year ended December 31, \$13, after deduction of all operating expenses, including maintenance and taxes, were \$2,326,253, or over twice the annual interest charges on all outstanding bonds and the present issue of Debentures.

The legality of this issue has been approved by Messrs. Winston, Payne, Strawn & Shaw for the undersigned, and by Mr. Isaac H. Lionberger for the Company.

The Day's Good Stories

Making Sure. H ER father, according to the Philadelphia Star, strode angrily into the parior just as the clock had finished striking midnight. "Look here, young man," he thundered, "do you stay as

late as this when you call on other girls?" The young man nervously clutched at his tie and his tongue clove to the roof of his mouth. "N-n-no, sir!" he finally managed to stammer. The parent, without another word, left the room. Not until he had rejoined his wife in the dining room did he speak.
Then he said, breathing a high sigh of relief: "Thank goodness, Martha; Mary has hooked one at last!"

In ever heard him brag. What makes you think him conceited?"
